About Me

Computer Science and Engineering undergraduate with skills in Java, Python, Data Structures and Algorithms, DBMS, Computer Networks, and Software Development. Experienced in developing academic and software projects using programming and problem-solving skills. Seeking a Software Development Internship to apply technical knowledge and contribute to real-world applications.

Technical Skills

Programming Languages	:	Java, Python, C
Web Technologies	:	HTML, CSS, JavaScript, ReactJS, ExpressJS, NodeJS
Databases	:	MySQL
Tools	:	GitHub, jupiter Notebook, VS Code, Google Colab
Core Concepts	:	Object-Oriented Programming, Data Structures,Advanced Data Structures and Algorithms Analysis, DBMS, Operating Systems, Software Engineering, Artificial Intelligence

Experience

Infosys SpringBoard Internship 7.0 August 2026 – October 2026 (Remote)

- Completed the Infosys Springboard Internship 7.0, gaining hands-on experience in software development and emerging technologies.
- Applied programming and problem-solving skills through practical learning, projects, and industry-oriented tasks.

Future Interns March 2026 – April 2026 (Remote)

- Worked on full stack web development involving both frontend and backend technologies.
- Gained hands-on experience in building and deploying web applications while improving problem-solving skills.

Projects

SocialPilot

- Built SocialPilot, a full-stack social media platform (Next.js, FastAPI, PostgreSQL, Celery) with OAuth-based publishing across Instagram, LinkedIn, and YouTube.
- Implemented Campaign, Analytics, and Reports modules with role-based access for 4 user roles.

ExamGuard-AI-Proctoring-System

- Developed an AI-based online proctoring system with real-time face detection,activity monitoring,and integrity scoring.
- Built a Streamlit dashboard for risk analytics, AI reports, visualizations, and JSON/CSV exports.

AI-Interview

- Built InterviewAI with Next.js, FastAPI, PostgreSQL and Gemini for AI interviews and evaluation.
- Added AI proctoring with face, tab-switch, and interaction monitoring.

Bluewave-Cafe-Web

- Developed a full-stack BlueWave Web Café application with responsive UI and backend functionality.
- Implemented frontend, backend, database integration, and core web functionalities for a seamless user experience.

Education

Sagi Rama Krishnam Raju Engineering College 2024 – 2028
B.Tech in Computer Science and Engineering (CGPA: 9.41) Bhimavaram, AP

Jawahar Navodaya Vidyalaya 2022 – 2024
Intermediate in Mathematics, Physics, Chemistry (M.P.C) (91.2%) Peddapuram, AP

Achievements

Solved 60+ DSA problems on GFG,Completed multiple AICTE virtual internships(AWS Generative AI Virtual Internship,Google AI-ML Virtual Internship),Maintained a CGPA above 9.4,Built multiple academic and full-stack projects,Multiple infosys Certification.

Certifications

- Programming Essentials in Python 1 and 2 , Programming Essentials in C++ - Cisco
- Data Base Management System - NPTEL
- Introduction To Python , Python For Data Science - Infosys , OOP Using Python Springboard
- Cambridge English Qualification(Level-1,2,3)
- Introduction to Generative AI Studio - SimpliLearn
